Volume XI, Number 2

How

The New York Times

on Microfilm

gives librarians a lift

COMPACT. A hundred-year file takes up less space than an ordinary office desk!

CONVENIENT. A month's file fits in the palm of your hand. No heavy volumes to lift or move. No binding problem.

FAST. Each new reel is mailed to you *within 3 days* of the ten day period it covers.

INDEXED. It's easy to find the news you want in your Microfilm edition—merely consult your file of The New York Times Index.

ENDURING. Microfilm has all the permanence of fine rag paper.

ALWAYS IN PRINT. Complete volumes available for any year as far back as 1851. You add to your file as your needs grow.

A year's subscription to The New York Times on Microfilm costs only \$140 (outside the U.S. \$144). If you have not yet adopted this modern, economical way of filing the news, a letter to the address below will start your subscription or bring you a prompt answer to any questions.

The New York Times ON MICROFILM

229 West 43rd Street, New York 18, New York
